He stated that he had not been able to get into the Eve Cottage and wished that he could complete that work. In addition to the home renderings, he prepared a topographical map and by using cell phone has GPS coordinates marked on the map for the locations of the homes and points of interest.

Richard stated that he purchased the Beersheba History.org website some time ago but it isn't up and running yet. He wants to get all the homes and history on the website.

Richard also had drawings of three homes with floor plan that will eventually be on the website.

Susan thanked Richard for a very informative presentation.
